## ABOUT ME

I am a hardworking student currently studying ICT and loves to find the joy in life.

## PROJECs/WORK

### MOODIFY

#### *Semester 4 Project*

For this project I together with a classmate created a mobile app that predicts your mood based on the weather and gives you song recommendations based on your mood.

### COMIC CON

#### *Semester 3 Project*

For this project I together with my group created a high fidelity prototype for an app to gamify the comic con experience.

### TINY SOLUTIONS

#### *Semester 3 Project*

For this project I together with my group created a brand identity for our group and made a brand guide.

### PROJECT-X

#### *Semester 2 Project*

For this personal project, I decided to do photography. I wanted to showcase human connections through pictures. So I took some pictures of my friends and I made a website to display them.

## **EINDHOVEN ROCKCITY**

*Semester 1 Project*

For this project I together with my group created a brand guide for Eindhoven Rockcity.

## **DKB**

*Freelance work / Nov 2023*

For this project, my friend wanted a website and a logo. So I made a website for him with Wix and designed a logo for him

## **IRIEVIBES**

*Freelance work / 2023*

For this project, my friend wanted a website and a logo. So I made a website for her with WordPress and another one using HTML, CSS and Javascript. I also designed a logo for her and helped her with her social media account.
